FINANCE AND COMMERCE.

FINANCIAL

NEW YORK, March 25.—Money—Easy at 1 1/2%, closing at 1 per cent.

Prime mercantile paper—4@5c.

Sterling Exchange Bills—Strong at 4 1/4%; demand, 4 8/8.

Governments—Stagnant, quiet and 1/2 higher for 3s.

Stocks—Market favorish and somewhat more active to-day, yielding readily to the influence of European war rumors. The fluctuation in prices were due wholly to manipulation with war rumors, the leading pretense upon which to base the advance and decline. In early dealings this morning prices were strong, but the market was quiet. After an advance of 1/2 to 1 per cent early in the day, a slight break in prices resulted from reports of a peaceful character regarding affairs between England and Russia. Later advices were of no effect, but prices went up again and created more activity. The upward movement lasted in most stocks up to the close of the board.
